Greetings,

FirstEnergy continues to provide opportunities for our customers who are low to moderate income. As such, I wanted to provide you with information on our WARM program that provides eligible customers with FREE, energy-saving home improvements that could help save money, lower electricity usage, and increase the comfort of your home.

What are the benefits of the WARM program?

Customers participating in WARM:

- Receive an in-home energy usage evaluation
- Work with a trained energy educator to create an energy-savings plan
- Have the opportunity to receive energy-saving home improvements installed in the home (see below for details)

What are the energy-saving home improvements?

Depending on how much electricity you use each month, the WARM Program could provide you with energy-saving home improvements such as:

- Attic and/or wall insulation
- Caulking and weather-stripping
- Refrigerator/freezer testing and possible replacement
- Electric water heater inspection
- Energy-saving light bulbs
- Replacement of inefficient window/wall air conditioners
- The specific improvements that you are eligible to receive will be determined during your home energy evaluation. No payment is required for these installations/services.

How do I apply for WARM?

Calling the Dollar Energy Fund at 1-888-406-8074 or completing the online form at FirstEnergycorp.com/WARM or paper applications

For your benefit, I have also attached a fillable application that can be either emailed or faxed to the WARM program.

As always, if you have any questions, please do not hesitate to reach out to me.

Kindest Regards,

Robi Lombardo
